4054 Upper Gate Lane

Charlotte, NC 28215

Dear Chris,

Thank you for assisting in making Bingham Park a safer place to live by taking the time, energy and professionalism to make a seamless transition for staff to manage security.

We especially appreciated the time taken to train staff on system operations. The equipment works well and provides a clear visibility for areas of concern. The support received from after installation follow-up calls were of great benefit.

We hope you are available whenever we are ready to expand our system. We highly recommend your services.
