

LETTER OF RECOMMENDATION

CHRIS GREEN AND VISUAL CONCEPT SYSTEMS

We used Chris Green and Visual Concepts to install a new camera system at our salon suites location in Charlotte, NC. and could not be happier with the work performed or the system. Chris' professionalism and expertise are top notch. What impressed us the most, even beyond the work performed, was the upfront honesty Chris displayed. We had an old system that needed to be replaced. Chris informed us that we could save money by using the existing wiring instead of him quoting us all new wiring. Knowing nothing about camera systems, we would have believed a less than honest individual who would have said we absolutely needed new wiring.

We highly recommend Chris and Visual Concepts to anyone looking to have this type of equipment installed or serviced.
